

EMERGENCY LIGHTING

Hanging marking panel for GR-8/LEDs & GR-9/LEDs

The most popular safety luminaires of our company, the GR-8/LEDs & GR-9/LEDs, acquired a hanging marking panel for ceiling installation, thus gaining dual use, either as safety luminaires or as emergency exit signs.

As emergency exit signs luminaires they can be single or double sided, depending on the requirements and with easy alternation of pictographs.

The hanging marking panel can be easily and quickly placed on the luminaires and has a viewing distance of 20 meters.

SP-1008

Marking panel for GR-8/LEDs & GR-9/LEDs

(Can be used only when the luminaire is installed on the ceiling)

Installation guide

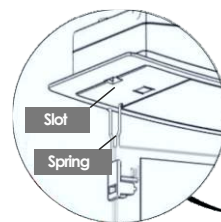

1. Install the required pictogram. There is one blind pictogram for one-sided marking.

2. Place the holding accessories to the marking panel.

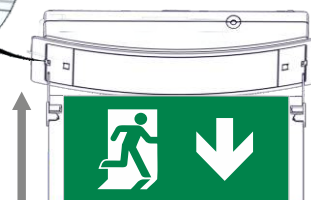

3. Place the two plastic covers and push till a click sound is heard.

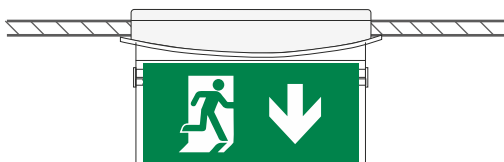

Compress the springs to insert it on the diffuser's slots.

4. Secure the marking panel to luminaire's diffuser.

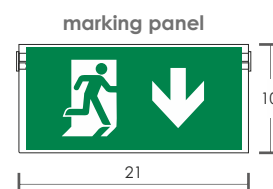

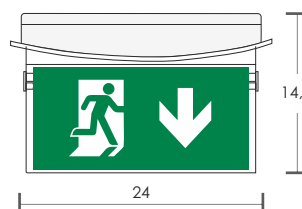

Mounting method

Recessed ceiling mounting with the A-3008 base and the SP-1008 hanging marking panel

Dimensions in cm

luminaire with the hanging marking panel
